Docket No. 99-039-TAP

ABSTRACT OF THE DISCLOSURE

SECURE GATEWAY MULTIPLE AUTOMATED DATA STORAGE SYSTEM
SHARING

5

A secure gateway multiple automated data storage system sharing is provided. Data is transmitted from a first data storage unit within a first automated data storage system to a second data storage unit. A request is then received from a second data storage system for the second data storage unit. The second data storage unit is then transported to the second data storage system.
